Jessica L. Bryant
Artist in Residence
March 20-April 27, 2012

Artist in Residence Jessica Bryant visited nearby Interior School to work with grade K – 8 students. She taught drawing and watercolor painting and guided them through the steps to create these finished paintings of Badlands landscapes.

During her five week residency, Jessica explored Badlands National Park in depth, developing a strong and lasting affinity for this special place. You can view her work at www.jessicabryant.com. New paintings of the Badlands will be posted as they are finished in the months and years to come.

Born and raised in the suburbs of Minneapolis, MN, Jessica currently resides in Coeur d'Alene, Idaho. She paints in a small studio in her downtown home, surrounded by the lakes and mountains of north Idaho.
